Things to remember:

- All students must complete advising in their first semester at CSUF. To make an advising appointment, visit https://booknow.appointment-plus.com/6nnybd5c/. We recommend that all transfer students receive advising during their first semester.

- CAS Option Core Classes have a required sequence of prerequisites. In order to graduate in 2 years, you must take these classes in this sequence.

- CAS fieldwork courses have a sequence. You must take the introductory practicum before you take the advanced practicum.

- There are a minimum of 120 units in a baccalaureate.
  - If you transfer with 60 units, you will need at least 60 additional units to complete your degree.
  - All transfer students must complete at least 3 upper-division GE classes at CSUF (B.5, C.3, and D.4).
  - To accomplish 60 units in two academic years, you can
    - Take 15 units per semester
      (15 units x 4 semesters = 60 units)
    - Take 12 units per semester and 6 units each summer
      ([12 units x 4 semesters] + [6 units x 2 summers] = 60 units)
