CSUF Practicum Supervisors' Evaluation of Program

1. Compared to other masters degree counseling students in their practicum, CSUF students' overall educational preparation is:

		Response Percent	Response Count
Very poor		0.0%	0
Poor		0.0%	0
Average		5.3%	1
Above Average		**68.4%**	**13**
Excellent		26.3%	5
		answered question	**19**
		skipped question	**0**
2. Students' clinical skills ability

		Response Percent	Response Count
Very poor		0.0%	0
Poor		0.0%	0
Average		26.3%	5
Above Average		**52.6%**	**10**
Excellent		21.1%	4
		answered question	**19**
		skipped question	**0**

3. Students' conceptualization of their clients

	Response Percent	Response Count
Very poor	0.0%	0
Poor	0.0%	0
Average	26.3%	5
Above Average	**52.6%**	**10**
Excellent	21.1%	4
	answered question	19
	skipped question	0

4. Students' assessment & diagnostic skills

	Response Percent	Response Count
Very poor	0.0%	0
Poor	0.0%	0
Average	**47.4%**	**9**
Above Average	42.1%	8
Excellent	10.5%	2
	answered question	19
	skipped question	0

5. Students' ethical behavior

		Response Percent	Response Count
Very poor		0.0%	0
Poor		0.0%	0
Average		26.3%	5
Above Average		21.1%	4
Excellent		**52.6%**	**10**
		answered question	19
		skipped question	0

6. Supervisor's perception of support from CSUF faculty

		Response Percent	Response Count
Very poor		0.0%	0
Poor		0.0%	0
Average		10.5%	2
Above Average		**57.9%**	**11**
Excellent		31.6%	6
		answered question	19
		skipped question	0

7. Suggestions for program improvement:

		Response Count
		6
	answered question	**6**
	skipped question	**13**

8. Other ideas or comments:

		Response Count
		6
	answered question	**6**
	skipped question	**13**

7. Suggestions for program improvement:

	Response Text	
1	Suggestions: 1. Less focus on student videos as an indication of how they are doing in the field; 2. Get students into the field quicker; and 3. Greater coordination of students getting to filed placements.	Jul 6, 2010 6:45 AM
2	discuss difference between community mental health versus private practice model and focus on recovery model related to treatment..	Jul 6, 2010 3:26 PM
3	More work in helping students to develop clinical techniques.	Jul 7, 2010 1:18 AM
4	When students accept a position for the practicum, they need to know they are committed to that site. We have had many CSUF students accept with our site and then later decline the position. Not professional!	Jul 12, 2010 9:14 PM
5	No suggestions ==> it's all good!	Jul 14, 2010 5:26 PM
6	I can't think of any suggestions we at GHSS have used trainess from CSUF and have found them to be the best trained in comparison to other degree programs.	Oct 19, 2010 8:46 PM

8. Other ideas or comments:

	Response Text	
1	Thank you.	Jul 6, 2010 6:45 AM
2	I WISH I COULD TALE MORE OF YOUR STUDENTS.	Jul 6, 2010 9:11 PM

8. Other ideas or comments:

	Response Text	
3	Allow students to run groups with their practicum site believes that they are ready.	Jul 7, 2010 1:18 AM
4	Overall CSUF students are good, and some exceptional. I gave an 'Average' because overall some students did not display professional attitudes and went beyond the supervisor/trainee relationship and did things that were not appropriate for trainees to do. Also, some students, once they become an intern think they 'know it all'. This is not just CSUF students, but there were some CSUF students who were not accepting the supervisee role and thought they knew more than their supervisor.	Jul 12, 2010 9:14 PM
5	Please update my email addy ==> should be SRMCSid@GMail.com	Jul 14, 2010 5:26 PM
6	Keep sending us your students.	Oct 19, 2010 8:46 PM
