# **Additional Comments**

Please make additional comments/suggestions that you feel could improve the program

# **Common responses include the following:**

how to conduct an assessment on substance abuse. One class that I enjoyed & learn the most was child course.  7 *Addictions could have been more interesting/thought provoking if the focus was not on remembering words in the chapter summary for the midterm  *More focus on education/training on sex addiction, spirituality & discrimination  *Less group work (where students are teaching the content/material) - should be more supplementary  8 *Maybe an extra course or extra concentration when working with adolescents.  *In addition, addictions felt undeveloped and disorganized, hopefully it can be improved for future students.  9 *More religious tolerance  *More research opportunities  *More connection opportunities w/ professors  10 A little more research papers throughout the program to foster more critical thinking and utilizing more evidenced based practice  11 It would be nice to have DMH paperwork training as part of the program  12 Great program! Glad I chose it!  13 Crisis and Trauma as an on-campus class not an online course would be helpful  14 I was unaware of what life would look like post-graduation. I feel there needed to be more conversations about what to expect and how to prepare depending on lifestyle  15 I really enjoyed the program. I cannot think of anything I would change! Thank you.  16 Great program!	#	Comment
<ul> <li>More coursework on religion &amp; sexuality!; require students to get personal therapy</li> <li>A greater exposure to religion, sexual issues, and cultural healing</li> <li>I really would have liked more instruction/courses regarding religion and sexuality. I feel there needed to be more conversations about what to expect and how to prepare depending on lifestyle  15 I really enjoyed the program. I cannot think of anything I would change! Thank you.  16 Great program!		
*In addition, addictions felt undeveloped and disorganized, hopefully it can be improved for future students.  9 *More religious tolerance *More research opportunities *More connection opportunities w/ professors  10 A little more research papers throughout the program to foster more critical thinking and utilizing more evidenced based practice  11 It would be nice to have DMH paperwork training as part of the program  12 Great program! Glad I chose it!  13 Crisis and Trauma as an on-campus class not an online course would be helpful  14 I was unaware of what life would look like post-graduation.
