The Department of Human Services appreciates your participation in providing a very integral component of our students’ learning. The work that our students engage in at your agency is an extension of their overall learning experience as a Human Services Major.

The purpose of this agreement is to formalize the requirements for the Human Services students serving at your Fieldwork Placement organization. The Learning Agreement is the cornerstone of the practical experience for our students. It sets the stage for what happens during the fieldwork placement, from a practice perspective, by providing a guide for the student, the agency-based supervisor, and the Fieldwork Seminar Instructor. Activities to be performed by the student are to be specified in the space provided. Activities then lead to skill areas to be learned while doing the specified tasks. These skills can be specific to the content of the activities, can be personal to the student or can be any combination of the two areas. There may be skills that are not listed on the Skills Classification List that the student and agency-based supervisor believe are important for the student to learn over the course of the semester.

The student agrees to perform the mutually agreed upon assignments within the agency for _______ hours per week during the current semester in partial fulfillment of requirements for practicum/internship field experience in the Human Services curriculum.

Pursuant to our accreditation standards and goals of our department, direct supervision must include one hour per week whereby the evaluating supervisor spends time with students allowing them to reflect on their duties, the clients, and their feelings as they participate in the fieldwork experience. Also, students should discuss how the material they are learning in their courses applies to their experience at the fieldwork site. Direct supervision of this nature may be done either individually or in a group. In cases where the supervisor works alongside the intern, as long as the above experiences outlined occur for an hour per week, then the standard of direct supervision has been met. Merely observing and giving duties to the intern does not suffice; reflection that focuses on knowledge and skill development appropriate to the agency is a mandatory aspect of supervision for interns.
