2013 Fact Sheet

College Demographic Information

College of Health & Human Development
Shari McMahan, Dean

The College of Health & Human Development (HHD) is one of eight colleges within California State University, Fullerton. As one of 23 campuses within the California State University System, Cal State Fullerton aspires to combine the best qualities of teaching and research.

Our affordable undergraduate and graduate programs provide students the best of current practice, theory, and research and integrate professional studies with preparation in the arts and sciences. Through experiences in and out of the classroom, students develop the habit of intellectual inquiry, prepare for challenging professions, strengthen relationships to communities and contribute productively to society.

We are home to more than 37,000 baccalaureate and graduate students supported by approximately 1,800 full- and part-time faculty members. Cal State Fullerton also offers a Doctorate in Education and Doctor of Nursing Practice. As a Hispanic Serving Institution, we have been ranked first in California and eighth in the nation by Hispanic Outlook in Higher Education among top colleges awarding bachelor’s degrees to Hispanics.

U.S. News & World Report ranks Cal State Fullerton number 5 among Top Public Regional Universities in the West.

Mission: The mission of the College of Health & Human Development is to provide exemplary education, research, and community outreach related to the health, development, and lifelong well-being. Emphasis is placed on both theory and evidence based practice, with special attention to the development of critical thinking, leadership, and humanistic skills needed to function in a diverse and changing society.

HHD: A COMMITMENT TO EXCELLENCE

**Organizational Structure:** The College of Health & Human Development is comprised of the following eight divisions:

- **The Department of Child & Adolescent Studies** provides undergraduate students with the knowledge and skills to interact effectively with children, adolescents, and families in a variety of educational and service settings. *(BS Degree, Minor)*

- **The Department of Counseling** is committed to training competent professionals who are eligible for licensure as Marriage and Family Therapists or prepared to serve as in community agencies. *(MS Degree, MFT Licensure)*

- **The Department of Health Science** bridges the gap between scientific discoveries and the application of this knowledge to improve the quality of people’s lives, and research reflects the range of diverse health problems, settings and populations. *(BS Degree, MPH, Minor)*

- **The Department of Human Services** provides both the academic and experiential background for the student seeking a career working with people in the varied and expanding field of Human Services. *(BS Degree, Minor)*

- **The Department of Kinesiology** provides a broad understanding of human motor performance and health through its degree programs and through the scholarship and creativity of its faculty and students. *(BS Degree, MS Degree, Minor)*

- **Military Science Program** is our on-campus ROTC Program providing physical training, Military Science classes and field training exercises. *(Minor)*

- **The School of Nursing** is committed to providing quality undergraduate and graduate nursing programs, which are accessible to a diverse student population. In doing so, we strive to be a center of excellence in nursing education. *(BSN Degree, MSN Degree with four specializations: Nursing Leadership, Certified Registered Nurse Anesthetist, Women’s Health Care, School Nursing and Nurse Educator, DNP)*

- **The Department of Social Work** educates emerging and committed professionals for direct social work practice with vulnerable children and families in a socially, culturally and economically diverse urban environment. *(MSW Degree)*

The College also houses the following Institutes and Centers in support of its mission:

- **Health Promotion Research Institute** serves as a catalyst and focal point for research, training and community interchange to develop and disseminate evidence-based information and health promotion programs.

- **Sport and Movement Institute** promotes research and service in areas related to physical activity.

- **Center for Autism** is dedicated to research, education, and service in autism spectrum disorders (ASD). The mission of the **Applied Developmental Core** is to understand developmental processes in autism and to promote competence and wellbeing in children with ASD and their families

- **Center for Cancer Disparities Research** promotes scholarship and creative activities to improve the cancer-related health and wellbeing of ethnic minority and other medically-underserved populations in Orange County.

- **Center for Sport Performance** conducts, presents and publishes research and engages in consultations specifically related to improvement of sports performance through application of the sub-disciplines of Kinesiology.

- **Center for Community Collaboration** seeks to strengthen children, youth and families in collaboration with public agencies and community-based organizations.

- **Center for Successful Aging** promotes health, vitality and well-being in later years through four distinct programs: Senior Fitness; Balance and Mobility; Health Promotion for Older Adults and Outdoor Exploration.

- **Fall Prevention Center of Excellence** was established to provide leadership, create new knowledge, improve practice and develop sustainable fall prevention programs.

- **Center for the Promotion of Healthy Lifestyles and Obesity Prevention** facilitates interaction among multiple entities concerned with the rise of childhood obesity including university faculty, schools, community agencies and policy makers.

- **Employee Wellness Program** is centered around the promotion of physical activity and healthy lifestyle choices, provides information for improving one’s wellness.

- **The Fibromyalgia and Chronic Pain Research & Education Center**’s philosophy is to advance research, education, and professional practice related to FM and other chronic pain disorders.

- **The Center for Boys and Men** The Center for Boys and Men promotes research and community outreach in areas related to the psychological well-being of boys and men. The Center facilitates scholarly work on male gender role norms and diverse forms of masculinity and how they intersect with mental health.
