Do you want an education that contributes to your personal and professional development? To put theory into practice?

“Our college offers programs that prepare students for fields of the greatest human concern in our richly diverse society: the education and development of our children, and the physical, social emotional well-being of all members of our community. We welcome you to the College of Health and Human Development and the opportunity to learn the knowledge and skills needed to make a lasting contribution to the world in which we live.”

Dean Shari G. McMahan

SPECIAL PROGRAMS

- Partnership with Social Services Agency – Our Human Services and Counseling programs have collaborated with the Social Services Agency of Orange County and Cypress College to offer employees opportunities to advance their educational objectives.
- Fieldwork Office – Our Fieldwork and Community-based Learning Center provides opportunities for HHD students to gain experience in the field of work through internships or volunteer positions.
- Center for Successful Aging – Through its educational, research and service activities, The Center for Successful Aging has as its mission the promotion of health, vitality and well-being in later years. The center has four distinct programs: Senior Fitness, Balance and Mobility, Health Promotion for Older Adults, and Outdoor Explorations.
- Center for Community Collaboration – Supports applied scholarship, collaborative research, and dissemination of knowledge regarding the status, need and strengths of the community, particularly related to serving children, youth and families.
- Sports and Movement Institute – Promotes research, creative activity, and services related to sport, physical activity and fitness.
- Center for the Prevention of Childhood Obesity – Supports interdisciplinary research and works with schools and other community groups to address issues of health promotion and the prevention of obesity in children.
- Center for the Advancement of Responsible Youth Sports – In collaboration with parents, physicians, teachers, and coaches, promotes positive and developmentally appropriate sport and physical activity programs for youth populations.
