What are some challenges you have faced? How did you overcome them?

One challenge I have faced is having to work and go to school. Having a part time job takes away time that could be used for studying. Due to this challenge I make sure to plan my schedule accordingly and set aside time to study.

What are some tips you have for students at CSUF?

I would recommend all students to take advantage of all the resources available to them like the Student Success Centers and the CHHD Peer Mentor Program.

What steps are you taking to graduate on time?

I meet with my academic advisor regularly to make sure I am taking the appropriate classes. I have attended a credential overview workshop to prepare myself for the process of applying to the credential program. I also recently passed the CBEST and I am currently studying for my CSET in order to prepare for my credential program.

How has CSUF prepared you for your future?

CSUF has prepared me for my future through their mission “Titans Reach Higher” by creating a community that encourages me to do my best at all times.

“Choose a job you love, and you will never have to work a day in your life.”

~Confucius
