Operating Hours
Monday – Friday 7:30 – 4:00 pm

Agency Description
Trainees will be assigned clients through a systematic referral process and will be trained on how to engage in all phases of the therapeutic process. Trainees will conduct a full child/adolescent assessment required by Los Angeles County DMH. The trainee’s will be guided on assessment and parent/client engagement techniques to be able to appropriately assess client needs and identify a provisional diagnosis and develop a mutually agreed upon treatment plan with both parent and client. The trainee will also learn the value of the clinical loop and appropriate documentation to the DMH standard including GIRP note format and providing treatment that meets the objectives of the treatment plan to address the client’s diagnosis. Trainees receive both 3 full days of training prior to being assigned clients as well as a training manual with all training content and policy and procedures for working with clients in our setting. Trainees will be encouraged to engage the parent through the entire therapeutic process beginning in the assessment phase and frequent updates with collateral sessions when appropriate. Trainees will also have the opportunity to collaborate and consult with a multidisciplinary team of school personnel including the school nurse, school psychologist and others.

Student Requirements
8 hours per week for 1 school year.

Operating Hours
8:00 a.m. – 5:30 p.m.; 5:30 – 9 p.m. (Parenting Classes and Support Groups)

Agency Description
Private non-profit organization providing full-range of programs and services to assist blind, visually impaired, and blind/deaf children from birth through high school. Services available for parents and siblings, and family members.

Theoretical Orientation
Satir; Humanistic (i.e., Rogerian, Axline & Object Relation for play therapy); Family Systems (i.e., IFS) and some Cognitive Behavioral.

Our theoretical orientation is Eclectic/ Humanistic as according to recent research traditional psychotherapy approaches are not always appropriate when treating families of children with disabilities. Such families, usually, do not suffer from any “pathology.” They are experiencing symptoms of grief, as they are “grieving” their attachment dream of having the “perfect child.”

Our counselors help the development of “healthy personalities/SELF” and promote high Self Esteem for children and teens with visual impairments and their families- via Play and Talk therapies. They also assist parents and teachers using Cognitive Behavior (Love & Logic) and attachment models (i.e. Object Relationship and ENUF by Ken Moses.)

Hillview Mental Health Center is a Community Health Center that has been providing mental health services (including therapy, medication, and targeted case management) to individuals with severe and chronic mental illness in the San Fernando Valley since 1966. Practicum students will have the opportunity to work throughout our current programs including AB109, Adult Residential, CalWORKS, FCCS (Adult, and Older Adult), FSP (TAY, Adult and Older Adult), Outpatient (TAY and Adult), and Wellness Center. These programs provide innovative and structured settings for adults with mental illness who are working to improve their quality of living and functioning in the community. Clients are composed of transitional aged youth, adults and older adults with an Axis I diagnosis (predominantly mood and psychotic disorders) with possible co-occurring anxiety, substance abuse and Axis II disorders. The clients are ethnically diverse. Many clients are monolingual non-English speaking.

Direct/indirect services will include completing intake assessment interviews, case management, collateral/family consultations, individual therapy, facilitating group therapy, and crisis intervention.

**Theoretical Orientations**

Hillview Mental Health Center practices an eclectic orientation based on clients' needs, using the psychosocial rehabilitation model to focus on each individual's strengths instead of their weaknesses and their pathology. We utilize evidence-based treatments, specifically the Cognitive-Behavioral perspective.

Hope House’s mission is to provide Orange County adults with supportive and comprehensive treatment for chemical dependency. Hope House addresses the behaviors and emotions behind addiction. Clients learn a variety of tools to help them control behaviors within themselves instead of relying on others. The program’s primary focus is to have clients work through the resident hierarchy. Clients must respect authority, take on responsibilities, and work with fellow clients in a team environment. Treatment includes individual therapy, group therapy, and education about addiction.</td>

Agency Description
WYS- Family Oasis Resource Center is composed of three community based programs that treat a full range of mental health diagnoses: JumpStart4Kids (JS4K), Family Resource Center (FRC) and Outreach & Engagement (O& E). Practicum students provide services in all programs.

JumpStart4Kids (JS4K) – provides school-based counseling and parenting support services to students and their families through the Anaheim Elementary School District (AESD). Services are provided to students and their families from preschool through 6th grade with a wide range of presenting problems. Based upon referral and need, practicum students may be assigned to a particular school site, or travel to different campuses to provide service.

Family Resource Center (FRC) – FRC serves those at risk due to lack of insurance, poverty, homelessness, and domestic violence and provides short-term counseling services to community members of all ages who struggle with a variety of mental health issues. Our services can include individual, family, and couples counseling, and range from 10-20 sessions per client.

Outreach & Engagement (O& E) – O&E provides prevention and early intervention services to individuals of all ages throughout Orange County. Our providers support the North region of the county including, Anaheim, Buena Park, Fullerton, and La Habra. O&E services include case management, support groups, educational workshops, events, referral and linkage to community resources. Practicum students would provide individual, group or family counseling, and would work with clients struggling with various mental health issues. As a community-based program services are often provided outside of the office in homes, schools, clinics and other community settings.
